Dated 1-9-48

[Despatch Abstract.]

Agriculture - Grow More Food - Chemical fertilisers Ammonium Sulphate
Supply to Manure Mixing firms and sugar factories - Instructions issued

GOVERNMENT OF MADRAS
Development Department.
G.O (Ms.)No.4492, dated 1-9-1948.

ABSTRACT

AGRICULTURE - Grow More Food - Chemical Fertilisers - Ammonium Sulphate - Supply to manure mixing Firms and Sugar Factories - Instructions - Issued -

READ:-

From the Board of Revenue(Civil Supplies) No.Z.1.85782/48(CS dated 20-7-1948.

O R D E R:

The Government previously ordered that the supply of Ammonium Sulphate received from Messrs. The Fertilisers and Chemicals, Travancore Limited, should be distributed to Sugar factories and manure mixing firms instead of to ryots from Agricultural Depots on account of its price being higher than the pool price of imported Ammonium Sulphate. The Board of Revenue (Civil Supplies) has represented that this involves unnecessary rail transport (e.g. the Alwaye stuff has to be railed to Bezwada for supply to a Sugar factory). It therefore requests that the orders may be suitably modified. The Government have considered the question and issue the following instructions. The Fact's product should hereafter be utilised for distribution in the area nearest to the factory. The sale price to ryots at the Agricultural Depots in this area should be calculated on the basis of the 'pool price' of imported Ammonium Sulphate. Imported Ammonium Sulphate should be supplied to manure mixing firms and sugar factories at Fact's price on the principle of replacement cost if the consignment of Fact's product itself involved long transport.

(By Order of His Excellency the Governor)

To
The Director of Agriculture.
The Board of Revenue(Civil Supplies).
